Cases 12-CB-210091, et al

Dear Counsels:

This confirms receipt by this office of the Respondent's Motion to Dismiss Certain Causes of Action in the above-captioned case.

Section 102.24(b) of the Board's Rules and Regulations requires that all motions for dismissal must be filed with the Board in Washington, D.C. no later than 28 days prior to the hearing date. The hearing in this matter is scheduled for Wednesday, February 20, 2019. Accordingly, the filing deadline for the motion to dismiss in this matter was January 23, 2019. The Respondent, however, filed its motion to dismiss on January 29, 2019. Therefore, the motion to dismiss is untimely filed. The 28-day limit was established as the minimum time in which the Board can give such motions proper and thorough consideration. See Section 102.24(b) of the Board's Rules and Regulations.

Accordingly, as the Respondent's motion to dismiss was not timely filed with the Board, I cannot forward it to the Board for consideration.

Very truly yours,

/s/ Farah Z. Qureshi
Associate Executive Secretary
